# MATCH RACE FOR \$10,000.

Tammany Defeats Lamplighter on the Guttenberg Track.

Special to the Indianapolis Journal. GUTTENBERG, Sept. 28.—The match race between Marcus Daly'schestnut colt, Tammany, and G. Walbaum's brown colt, Lamp. lighter, took place at this track this afternoon, in the presence of fifteen thousand people. Tammany easily vanquished the son of Spendthrift and Torchlight, in as true a race as ever was. The winner was ably ridden by "Snapper" Garrison. He allowed Fred Taral, who had the mount on Lamplighter, to make the pace to the head of the stretch-and a fast clip it was, too-where he let out a link on Tammany. and the race was over. The chestnut passed his rival in three jumps, and romped home the easiest kind of a winner in the fast time of 2:0612. This time establishes a track record for the distance-one and a quarter miles. Lamplighter, spurred and urged to his utmost, finished three lengths behind the winner. How fast the race was run and the evenness of the pace is shown by the official fractional time, which was as follows: Eightb, :124; quarter, :2412; three-eighths, :57; half, :49%; five-eightha, 1:02; threequarters, 1:144; seven-eighths, 1:274; mile, 1:40%; mile and an eighth, 1:53, and mile

and a quarter, 2:0614.

value of the purse \$10,000.

If ever in its long and varied career Guttenburg had a gala day, it was to-day. For the first time in its history turlites of all degrees made it their Mecca. The struggle of Salvator and Tenny, when the great Californian and the game swayback were at the pinnacle of their fame, was, until to-day, probably the most notable event in the history of the American turf. But never even in that landmark of racing history has so much popular interest been attached to a match contest as centered on to-day's race at the erstwhile outlawed track on the hills of Jersey. Not only were Tammany and Lamplighter supposed to represent the latest development in horse breeding and two of the finest strains of thoroughbred blue blood, but their owners were known to be thorough sportsmen and the jockeys the lights and ornaments of their profession. From a better's point of view, also, the event was unique, the bookmakers being so greatly in doubt regarding the state of the public mind that they made the opening price 9 to 10 on each horse. The Tammany men eventually demonstrated that they were in the majority, but up to the moment that Tammany shot to the front in the home stretch there were Lamplighter men who would have wagered their souls that the strapping son of Spendthrift could not lose through anything short of a

The match was for \$2,500 a side, to which was added a purse of \$5,000 by the Hudson County Jockey Club, thus making the

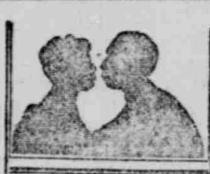

The pilgrimage to the hill top began early. A vast crowd came from the railroads, electric cars and, in fact, every known kind of vehicle, and surged through the gates two hours before the saddling bell for the first race tolled. The grand stand, lawns, paddock and clubbouse inclosures could not hold the crowd, so a liberal portion of the infield was railed off for the accommodation of a few of the late comers. Everything was in favor of the match. The weather was perfect and the track dry and fast. Neither pains nor expense had been spared to have the conditions favorable for a perfect test of the merits of the champions. The judges for the day were Joseph J. Burke, presiding judge, and Col. S. D. Bruce and J. E. Brewster, secretary of the Chicago Washington Park Association. Marcus Daily and General Jackson, owner and breeder, respectively, of Tammany, were among the notable persons present.

The crowd scarcely noted Tammany as he received his warming-up gallop, but his friends were making themselves felt in the betting ring. Lamplighter warmed up in his colors and received an ovation. In the betting ring at the opening the "bookies" chalked up 9 to 10 against each of the horses, and they did not have to wait long for takers. Betters rushed at them pell mell and waved greenbacks frantically in their faces in an endeavor to get money on their favorites. For a while the odds given remained steady, then the crush of Temmany money forced his price down and down until at post time 7 to 10 was the best obtainable on his chances, while as good as 11 to 10 could be obtained all around the ring on Lamplighter. Marcus Daly sent a big commission into the ring. The exact amount could not be learned, but several well-posted bookmakers said it amounted to at lesst \$20,000.

The bugie called the horses to the post at 4:16 exactly. Tammany was first to appear and was generously applanded. Lamplighter was accorded the same ovation. They got away at 4:19. Taral immediately sent Lamplighter to the front, evidently having instructions to make a hot race. Passing the stand Lamplighter was going easily, a length and a half in front, but Tammany loped along behind in that long easy stride so peculiar to him. Around the turn they swept with no perceptible change in the distance between them. Lamplighter's adherents were shouting as they went down the backstretch, but Garrison made no movement with Tammany until the far turn was reached, where he moved up to within a length of the leader. Then they swept into the stretch. Here Garrison went to work on Tammany. In a twinkling he was on even terms with Lamplighter. Up went Taral's whip, but the game was up. "Lamplighter's beaten!" roared the crowd. Again and again the whip descended on Lamplighter, raising cruel welts on his glossy hide. The spurs were driven with the energy horn of despair. In spite of all, however, Tammany drew further and further away, and romped in an easy winner by three lougths in the fast time of

The crowd cheered frantically for Tammany when he made his great rush through the stretch, and when Garrison returned to the judges' stand after the finish they broke through the rails, dragged Garrison from his horse and carried him to the weighing scales. He was then placed in a huge floral horseshoe and triumphantly paraded

before the grand stand. Mr. Walbaum was naturally disappointed at the result of the race and asked Mr. Daly if he would make another match for the same stake, the distance to be one and one-half miles. Mr. Daily had intended to retire in event of winning to-day's match. but he generously gave up this purpose for a time at least and agreed to give Mr. Wal-

The shadows that fill your life, if you're a feeble, suffering woman, can be taken out of it. The chronic woaknesses, functional derangements, and

painful disorders peculiar to your sex, can be taken away. The one unfailing remedy for them is Dr. Pierce's Favorite Prescription.

It corrects, cures, and builds you up. It improves digestion, enriches the blood, dispels aches and pains, melancholy and nervousness, brings refreshing sleep and restores health and strength. For periodical pains, internal inflammation and ulceration, weak back, leucorrhea, and all kindred ailments, it's a positive specific-one that is guaran-

Tyler Breaks a Bicycle Record.

SPRINGFIELD, Mass., Sept. 28.-Harry Tyler, who beat Zimmerman and Sanger out in the recent meeting held here, added another to his laurels to-day by breaking the world's record for two miles, riding the distance nine seconds faster than did Osmond, the English rider, who made the world's record last month in England. Thorough preparations had been made for the trial and the most advantageous circumstances assisted the plucky rider in his successful attempt. He was paced by triplets for the entire distance except the last half, when Willie Windle picked him up and paced him to the tape in handsome manner. Tyler finished the distance in 4:15 8/5, the intermediate quarters being as follows: :35, 1,05, 1:37, 2:00 4/5, 2:39, 3:11,

Arrival of Cricketers. NEW YORK, Sept. 28 .- The steamer Germanie, of the White Star line, arrived tonight, having on board the Australian cricket team, who are to make a tour of America. A committee of the Gentlemen's Club, of Philadelphia, will go down the bay in the morning and take the visitors on board a tug, whence they will proceed to Germantown Junction. The opening series of games will be started to-morrow. Saturday and Monday, after which the Australians will return to New York as the guests of the Metropolitan Cricket League.

### HE IS NO HERETIC.

Illinois Methodist Ministers Patch Up a Serious Disagreement.

Special to the Indianapolis Journal. DANVILLE, Ill., Sept. 28 .- Rev. Charles Crane, of the First Methodist Church, had resolved to prefer charges against Rev. James Miller, formerly of Marshfield-avenue Church, Chicago, now pastor of Grace Metitodist Church, of Bloomington, for heresy. The trouble arose out of a bitter newspaper controversy waged between the two reverened gentlemen several weeks ago. Rev. Miller received a hint of Rev. Crane's intention and came to Danville yesterday. A newspaper reporter called on Rev. Miller at 9 o'clock last evening, and to him Mr. Miller stated that his visit to Danville had nothing whatever to do with Mr. Crane. He did not expect to see him, and had no apology o make. A short time after this Rev. Miller and Rev. Crane met at the residence of Rev. Webster, another Methodist minister. They did not report until 2 o'clock in the morning. They then gave out a press report which stated that Rev. Miller was strongly in favor of all Methodist Church doctrines, and was opposed to dancing, theater-going and carl parties. Mr. Crane also announced that he would not prosecute Mr. Miller in the conference for hereay. It is thought here that

# it is a decided victory for Rev. Crane.

Alleged Conspiracy to Blow Up the Austrian Reichsrath.

Chicago "Reds" Charged by the Vienna Police with Being Concerned in the Conspiracy.

LEO AND HUMBERT AT WAR

Bombardment of Rio de Janeiro Resumed by the Insurgents.

Proposed Ovation to Russians at Toulon Frowned Down-A Second Pompeii Discovered in Greece.

VIENNA, Sept. 28 .- The police have discovered an Auarchist conspiracy to blow up the Reichsrath. The "reds" intended to smuggle, a quantity of dynamite into the underground portion of the Reichsrath and when that body met on Oct. 10 to blow the Reichsrath sky high and strike terror into the hearts of the enemies of the independent group of Socialists, to which the Anarchists arrested on Sept. 23 here belonged. The Reichsrath consists of the upper and lower houses. The upper house (Herrenbaus) is formed of the princes of the imperial family who are of age, a number of nobies (68), the archbishops, say ten in all, and of any other life members nominated by the Emperor on account of being distinguished in art, science or the church or state, about 113 all. The lower house consists of about 353 members, elected partly or directly by the votes of citizens. Some six hundred people would, therefore, have been hurled into eternity on Oct. 10 had the police not discovered the plot. But the Reichsrath was not the only building the Anarchists intended to blow up on Oct. 10. They had their plans also fully prepared to blow up the town hall. In this building over a thousand people would have been destroyed on Oct. 10 had the police not unearthed the plot. Even this was not the full extent of the terrible conspiracy discovered. A number of other important buildings on the Ring strasse, one of the finest streets in Europe, were doomed to destruction, with everybody in them, on the day appointed for the Anarchist outbreak. The University, another building, was also to be undermined with dynamite, as was the famous historical museum of Vienna and other fine buildings of a similar nature. The Hofburg Theater, opposite the Rathhaus, was also marked out for dynamiting. Now comes, so far as the United States is concerned, the strangest part of the whole conspiracy. The police of this city insist, and claim to be able to prove their assertion, that the Anarchists engaged in the terrible conspiracy against the city of Vienna were connected with the Anarchists of Chicago. This is not a police theory, the authorities say, but the connection of the Anarchists of Chicago with those of this city has been fully established beyond any doubt. Correspondence between the Anarchists here and those at Chicago is said to be in the hands of the Austrian police, who, it would seem, must have communicated with the police of Chicago on the subject.

ITALY AND THE VATICAN.

Serious Disagreement Between the Pope and King Humbert. Rome, Sept. 28.-There has been a new and most serious disagreement between King Humbert and the Vatican. The Pope refuses to recognize the King's right to nominate a patriarch for "nice, and in consequence the Italian Miniory has decided to refuse exequators to all bishops nominated at the last consistory.

Signor Ressman, the Italian embassador to France, who is in Rome, gives discouraging accounts of the feeling in France towards Italy. In military circles the outlook in regard to the future relations between France and Italy is considered dangerous to peace. The Pope is preparing another encyclical in which he will thank the Catholics for the filial homage they showed during his jubilee. The Pope takes daily walks in the Vation gardens along a path from which he cannot be seen in the streets, but from which he can overlook the city.

REBELS STILL AT WORK.

The Bombardment of Rio De Janeiro Re-

sumed Yesterday. LONDON, Sept. 28 .- A private cable message, received here this afternoon, says that the rebel fleet resumed the bombardment of Rio de Janeiro this morning. Another message received at Paris, coming from an American source, denies the truth of the report received here to the effect that the war ships belonging to the squadron commanded by Admiral De Mellos were silenced yesterday, after opening fire upon Rio de Janeiro, by the guns of the land forte at the mouth of the harbor. The forts at Rio; according to this dispatch. were anable to shell the rebel ships, owing to the position the latter occupied, without taking tremendous risks of dropping shells into Rio de Janeiro itself. The forts never tried a shot at the rebel ships for fear of hurting friends and damaging property, and because the little ammunition they have in their magazines is held in reserve in view of a possible attack on the forts. The inhabitants of Rio are still hoping for foreign intervention in their favor, and the commanders of the foreign war ships are said to have been frequently appealed to on the subject, with no definite result, though the report has reached here that the foreign ships have intervened in favor of Rio de Janeiro. All reports, however, reaching the outside world from Rio have come either from government sources or from friends of the rebels, both sides coloring their reports to suit themselves. It is believed, however, that the dispatches received by the banking houses in London have given the public an idea of the real situation of affairs.

CHECK ON FRENCH HOSPITALITY. Russia Does Not Want a Big Demonstration When Her Fleet Visits Toulon. Paris, Sept. 28 .- It is now evident that the semiofficial and official warnings which the government has received from Russia in regard to putting a check upon the extra demonstrativeness of the French people in connection with the Russian fleet at Toulon are having their effect. A feeling of chilliness is commencing to be felt in official circles here regarding the affair. It was originally intended that President Carnot should receive the Russian fleet on its arrival, and the visit of the Russian sailors to Paris should be a perfect triumphal procession upon a scale never before attempted in the history of the world. At Tonlon receptions were to have been tendered the sailors. troops were to have been out on all sides; balls and banquets galore were spoken of, monuments were to have been unveiled, glowing addresses were to have been made, and, in a word, nothing was to have been left undone to make the visit of the friends of France a demonstration. Now this has undergone a considerable change, and seems to be changing more every day. President Carnot only yesterday was said not to have determined to dispense entirely with his visit to Toulon, but to have curtailed it to a visit of a few hours' duration only, to the Russian squadron, after which the President was to return promptly to Paris, thus, it was sig-nificantly added, doing away with the necessity of the Italian envoy extraordinary being present. Then again, yesterday, the

to entertain the Russian visitors, and they must pay for any entertainment out of their own funds. This alone robs the approaching Russian visit of much of its charm to Toulon, and the Russians in visiting at Toulon will be guests of the city and not of the nation, as at first intended. This is also a significant change in the French programme, and now to-day the Gaulois says that the Russian fleet will not be received by the President of the French republic, but that it will be welcomed by Admiral Rieunier, who will command the forces at Toulon, and by General Borieus, in command of the military forces at the port mentioned.

GLADSTONE'S SPEECH.

Comment of London Newspapers on the Premier's Protest Against the Lords. LONDON, Sept. 28.-The Right Hon. W. E. Gladstone left Edinburg, for Hawarden to-day. His speech yesterday is now said to be a bitter disappointment to the Liberals, who were hoping that their leader would outline the plan of campaign to be undertaken against the House of Lords.

The Star, which has been waging a violent campaign against the lords, by publishing, from day to day, a series of chapters from the history of the Peerage, headed "Titled Corruption," etc., says today that Mr. Gladstone treated the lords with "scrupulous tenderness." The St. James Gazette says that the plain reason why Mr. Gladstone does not raise the cry of "down with the lords" is because he dare not, as he knows that the

country is with them. The Times says that the speech possesses the quality of courage, not on account of his menacing language towards the House of Lords, but the courage of his inconsist-encies. It was during his Midlothian campaign, in 1885, to which he referred in his speech of yesterday, that he appealed to the people to give him a majority independent of the Irish votes. His thunderbolt was cleverly forged. It was not intended

to offend the peers but to encourage his supporters. The Chronicle says that the soul-stirring words of Mr. Gladstone fully responded to the expectation of the most crushing indictment ever made against a legislative body. The speech was a perfect armory, from which powerful weapons may be drawn abundantly by those who are about to engage in the campaign against the peers. If the House of Lords persists in its new form of treason to the nation the representatives of the people will be expected to find a method of dealing with that body once for all. The home-rule bill can be sent to the House of Lords next year by the House of Commons passing a resolution. That is how the Chronicle interprets Mr. Gladstone's words. This, it says. will save time and enable the House of Commons to deal with a democratic pro-

The Daily News says that the inference deducible from Mr. Gladstone's speech is that the House of Lords, following former precedents, will bow to the popular will. The paper says that the House of Lords consists of 550 privileged men against the whole nation, and if its members are so inclined they may provoke a revolution. The question is whether they will do so now. Mr. Gladstone's retrospect of the past sixty years answers this question. The absence in Mr. Gladstone's speech of any proposals dealing with the claims of the peers is no sign of weakness in his position. He is the head of a compact majority, too strong to require resort to violent measures. Mr. Gladstone has told the Liberal bosts to go forward, and forward they will go.

A SECOND POMPEH.

Burled City Discovered in the Grecian Prov-

ince of Aities. Paris, Sept. 28 .- The Eclaire to-day announces the discovery of a second Pompeil. An entire town, according to the Eclaire, consisting of a number of streets, houses, etc., has been unearthed near Laurium, a promontory and hill range forming the southeast portion of Attics in Greece. In ancient days the silver and lead mines of Laurium were very important. Theirrefuse pres are still smelted. The mines are connected by rail with the port of Ergasteria.

### VOTED TO NOT STRIKE

Big Four Employes Will Accept the Reduction in Wages.

President Ingalls Notified to that Effect by the Grievance Committee-L. & N. Strike Spreading.

Epecial to the Indianapolis Journal. TERRE HAUTE, Ind., Sept. 28.-Grand Master Sargent received a telegram from. Cincinnati this afternoon saying the result of the vote on the Big Four was to accept the proposition of the company for a reduction. Nothing further was said, but it is well understood to be a fact that while the necessary two-thirds of the firemen, trainmen, operators and switchmen voted to strike, less than twothirds of the engineers and conductors did so. Under the federation two-thirds of each order must vote one way to carry a strike. Grand Master Sargent left to-night for Denver where the brotherhood national executive officers are called to consider a parellel situation on the Denver & Rio Grande. Grand Secretary Arnold goes to Louisville in the morning. where a like case is presented on the Newport News. It is a safe prediction that under the federation no strike will be ordered this year on the question of wages, chiefly because the engineers and conductors will vote against it.

A dispatch from Cincinnati says: The members of the Big Four grievance committee this evening called at President Ingalls's office and announced to his secretary that they would accept the reduction of wages. The members of the committee packed up their baggage this evening and left the city without announcing the count. They left word at their hotel to say that they had gone to Indianapolis, where the result would be announced. It has been ascertained, however, that four of them went to Cleveland, and Mr. Morris, the remaining member, went to Mattoon. What this movement means is not understood

L & N. Strike Spreading.

LOUISVILLE, Ky., Sept. 28.—The situation on the Louisville & Nashville system has assumed a serious aspect. The threatened strike seems to be on now in earnest. Thirty-five switchmen in the yards quit work to-night and were joined by seventytwo brakemen. These comprise the complete force of freight brakemen on the main system of the first division and they will probably be followed by the brakemen all over the Louisville & Nashville system. Railroad officials were very retieent to-night about giving any information concerning the strike and claimed they could get along without the switchmen. The facts in the case do not bear this statement out. All freight trains that were to have left between the hours of 7 to-night and 7 to-morrow have been abandoned. The switchmen and brakemen have all along been opposed to the cut and have only been waiting an opportunity to override the decision of the grand chief and go on strike. The importation of scab mechanics to take the place of the union mechanics now on strike has not been liked by the trainmen and to-night they walked out. The question at this hour is: Will the engineers and firemen strike? If they do the road will be blockaded. At midnight there is no indication of a strike on the part of the engineers, but any hour may see all the trainmen walk out. The situation is indeed critical. To-night the Louisville Council voted to ship back to their homes all the imported mechanics who have been persuaded by the strikers to quit work at the L. & N. shops.

Another Hardin Arrested. CINCINNATI, O., Sept. 29 .- Since 1 o'clock this (Friday) morning detective Witte, of this city, in company with detective White, of St. Louis, arrested one Joseph S. Hardin, municipal authorities of Toulon were in- | who is believed to be one of the robbers of

# ABSOLUTELY PURE

MR. CLEVELAND FIRM.

[Concluded from First Page.] would be considered as a concession to the silver men the repeal advocates refused to accept this proposition. To-day, however, it became apparent to the Democrats that this was the only plan which would enable them to confirm these appointments, and in the executive session this evening. after some debate, Mr. Voornees reluctantly agreed to devote all of next Thursday to an executive session, at which these appointments would be considered. This agreement pleases the silver men immensely, as they regard it as another point gained for them. If a quorum is present on Thursday it is probable that these arpointments will be favorably acted on by a strict party vote.

Confirmed by the Senate. WASHINGTON, Sept. 28.—The Senate has confirmed the following nominations: Collectors of Internal Revenue—J. L. Wilcox, Eighth district of Illinois; W. K. Murphy, Thirteenth district of Illinois.
J. H. Woodnorth to be pension agent at Milwaukee, Wis. Consuls-John Karel, of Chicago, at

Prague, Austria; J. S. Gibson, of Texas, at Guayamas, Mexico; Luther Short, of Indiana, consul-general to Turkey; E .S. Wallace, of South Dakota, consul at Livas, Turkey; A. M. Clark, of Michigan, at Port Lavina, Ont.; C. S. Haseltine, of Michigan, at Milan, Italy. Indiana Postmasters-C. S. Schintler, at

New Albany; Edward Voris, at Craw-fordsville; S. R. McCutchen, at North Man-chester; N. H. Kennedy, at Lafayette; J. S. Rice, at Indiana Mineral Springs; John Adams, at Columbia City; J. W. Calvin, at Bourbon; W. W. Rockhill, at Fort Wayne; S. E. Grover, at LaPorte; George Mitchell, at Batesville; James Zimmerman, at Cov-

TIN PLATE PRODUCTION. Growth of the Industry as Shown by Special

Agent Ayer. WASHINGTON, Sept. 28.-Special Agent Ayer has submitted to Secretary Carlisle a report on the production of tin and terne plates in the United States during the quarter ended June 20, last. He says that the aggregate output for the quarter was 41,866,042 pounds, of which slightly more than 49 per cent, was from American black plates. The tin and terne plates, manufactured during the fiscal year, 1892, aggregated 13,646,719, of which 9,296,553 were from American black plate, and 4,350,166 from for sign black plate. Those manufactured during the fiscal year 1893 aggregated 99,819,202, of which 43,590,724 were from American plate and 56,219,477 from foreign plate. There were 5,620,867 pounds of American sheet iron and steel made into articles and wares, tinned or terne plated, during the fiscal year 1892 and 8,802,681 pounds made during 1893, making the aggregate manufacture of tin and terne plates in the United States during the year 1892 19,267,586 pounds and during 1893 108,-621,885 pounds. The total number of American plates used was as follows: 1893, 14,-917,420 pounds; 1893, 52,492,405 pounds. The total production of black plates during the fiscal year 1893 was 63,681,651 pounds.

The output of the tin and terne plates proper, of the lighter class, during the fiscal year 1893, was 93,850,487 pounds, showing an excess over and above what may be termed the one-third requirement, of 14,542,548 pounds. This, the report says, is exclusive of the manufacture of American sheet iron and steel made into articles and wares tinned or terne plated. The product from American plates during 1898, of the kind subject to comparison with the net importations, was about five-eighths of that necessary to enable meeting the one-third requirement, comparison being made with the net imports in the fiscal year 1892. Mr. Ayer then presents figures showing the imports and exports of plates from the United States, and says: "This will indicate that the entire consumption of the United States during the fiscal year 1893 was 720,000,000 pounds, of which more than 15 percent, was of American manufacture. It was shown in my report, dated April 26, 1892, that during the three fiscal years ended June 80, 1890, there were imported and entered for consumption in the United States of tin and terne plates and of taggers plates an average of 678,000,000 pounds annually."

Mr. Ransdell Will Not Desert Indianapolis. Special to the Indianapolis Journal.

WASHINGTON, Sept. 28.-United States | WANTED-MEN OR WOMEN FOR DISTRICT Marshal Daniel M. Ransdell informs the Journal correspondent that it is not his intention to make Washington his home, and that the interest he has purchased in the Ebbitt Hotel Company is simply an investment, will not require his personal attention or presence here, and that it is his purpose to resume his residence at Indianapolis as soon as he is relieved of his federal office. His family will arrive at New York, from Germany, on the 21st of next month, and will go directly to Indianapolis. If he is relieved of his office here by that time, he will also go to Indianapolis with them, and remain there, so far as he knows at this time. Although Marshal Ransdell has made no business connections yet at the Hoosier capital, he has made none here that will induce him to make this city his home.

INCENDIARIES INDICTED.

They Burned Thirteen Stores in Illinois,

Indiana and Other States.

Brecial to the Indianapolis Journal. CHICAGO, Sept. 28.-The grand jury today returned thirteen indiciments against F. W. Smith, C. C. Churchill and D. Brown for conspiracy to commit arson and to defraud insurance companies: It has been discovered that Smith and others were concerned in the destruction by fire of thirteen stores, in which the stocks of goods were maured for many times their value. In most of the cases the fraud was successful, and it is estimated that the conspirators have obtained from insurance companies in that way withost \$100 .-000. They operated in small towns in Il-Inois, Michigan, Wisconsin, Indiana, Kentucky and lowa. In all the transactions Smith was the moneyed man and chief schemer.

Indiana Yearly Meeting. Special to the Indianapolis Journal. RICHMOND, Ind., Sept.28 .- The second day

of the Indiana Yearly Meeting opened this

morning with a meeting of ministers and elders. A. M. Kenworthy gave an interesting account of his visit to England and asked to return for another evangelical trip. The matter was referred to a committee consisting of two from each quarterly meeting. The Yearly Meeting convened at 10 A. M. Elwood O. Ellis was appointed clerk, and C. A. Francisco and Ira C. Johnson assistants. Levi Burtord was appointed announcing clerk. The annual report of White's Institute, in Wabash county, was read, showing great material and spiritual prosperity for the year. The terms of Samuel B. Hill and William Edgerton as trustees having expired tormed that they could not have a train on the Illinois Central road. He is the matter of filling the vacancies was refer.ed to a special committee. The report

Carelessness Results in a Fatal Wreck on the L. & N. Railroad.

Louisville, Sept. 28.-There was a wreck on the Knoxville branch of the Louisville & Nashville road this afternoon at 3:45 o'clock near Hazel Patch, Ky., between passenger train No. 43 south bound and No. 20, a mixed freight bound north. Express messenger James Kelly, mail agent Smith and fireman Thomas Ryan, of the passenger, were instantly killed, and Arthur Pearce, engineer on the freight train, had his leg broken and was injured internally; he will probably die, None of the passengers were injured, but all received a general shake-up. Kelly was a married man, and leaves a wife and two children living in this city. Ryan was also a Louisville man. The cause of the wreck was due to the passenger engineer neglecting to obey his orders to meet the freight
